Center for Rehabilitation and Sports Medicine University of Groningen, University Medical Center Groningen PO Box 300001 Workshops are interactive discussions or demonstrations on a topic or issue in sports injury/ illness prevention. These could be related to practical injury prevention programmes (e.g. exercise programmes), skills (e.g. taping, bracing), or methodological issues of particular relevance to researchers in the area. Workshops are informal, intending to give a maximum of 25 attendees a chance to "meet the expert".

Please visit the Conference website to submit your workshop www.ioc-preventionconference.org

GENERAL INFORMATION

- The deadline for workshop submission is 15 September 2019.
- Workshops will only be accepted via the Internet. NO exceptions will be made for late workshops.
- The workshop must be written in English. If English is not your first language, please have it reviewed by a language editor.
- Authors will be informed of the decision of the Scientific Committee by November 2019.

WORKSHOP (40-50 minutes)

ALL PROPOSALS MUST STRICTLY ADHERE TO THE FORMAT SPECIFIED

Mandatory Items:

1. Title of the workshop

Must be a specific title describing the workshop content precisely (catchy)

- 2. Programme
 - Duration: 40-50 minutes
 - Must include an introduction (Accepted even if there is no introductory lecture title)
 - Include the title for each lecture as well as the related speaker and precise length
 - Number of speakers: minimum 1 maximum 2

3. List of speakers

- Number of speakers: minimum 1 maximum 2
- Each speaker must be listed as here below:
 - Name Surname, Title, Academic Degree
 - Email address
 - Mailing Address (Institution/Company, Department, City, Zip Code, Country)

4. Value and significance of the topic

- Mandatory description of the value and significance of the topic and speaker(s) to enable the scientific committee to judge the merit of the proposal
- Length: maximum one page (accepted even if it flows over to next page)
- No CVs or publication lists for speakers

5. Brief description of the contents/objective for your workshop

- Must not exceed 140 characters (think tweet)
- This will be included in the final programme in addition to the workshop title and name(s) of the speaker(s)

The **IOC World Conference on Prevention and Injury & Illness in Sport** will include poster sessions and free communications. The Conference is multidisciplinary, and we encourage abstracts to be submitted within all fields of **prevention research**. This includes studies on epidemiology, risk factors, injury mechanisms, pathophysiology, intervention studies, relevant biomechanical studies, studies on sports behavior and attitudes, and related research from other fields.

Please visit the Conference website to submit your abstract www.ioc-preventionconference.org

GENERAL INFORMATION

- The deadline for abstract submission is **15 September 2019**. Abstracts will only be accepted via the Internet. NO exceptions will be made for late abstracts.
- Abstracts will be published in a special themed issue of the British Journal of Sports Medicine.
- The abstract must be written in English. If English is not your first language, please have it reviewed by a language editor.
- The abstract must be written in English. If English is not your first language, please have it reviewed by a language editor.
- Authors will be informed of the decision of the Scientific Committee by November 2019. Abstracts will be accepted as oral presentations or posters (please indicate your preference when submitting the abstract online).
- Make the title brief, but informative, clearly indicating the nature of the investigation/presentation. Do not capitalise the title!
- Objective data MUST be included so that the reviewers can make a fair and meaningful appraisal.
- Abbreviations are allowed, but must be clearly defined.

ABSTRACT BODY

- The abstract cannot be longer than **300 words** and must be structured, using the following headings and including the following information (hard return between each section):
- Background: Provide the background for the study in one or two sentences.
- Objective: State the main question or objective of the study and the major hypothesis tested, if any.
- **Design**: Describe the design of the study, indicating, as appropriate, use of randomisation, blinding, criterion standards for diagnostic tests, temporal direction (retrospective or prospective), and so on.
- **Setting**: Indicate the study setting, including the clinical setting or competitive level in sports if relevant (e.g. youth sports, high school league, elite division, World Cup team).
- Patients (or Participants): State selection procedures, entry criteria, and numbers of participants entering and finishing the study.
- Interventions (or Assessment of Risk Factors): Describe essential features of any interventions, including their method and duration of administration. For observational studies, clearly outline the independent variables.
- Main Outcome Measurements: The primary study outcome measures (dependent variables) should be indicated as planned before data collection began. If the hypothesis being reported was formulated during or after data collection, this fact should be clearly stated.
- Results: Report the main findings of the study.
- **Conclusions**: State only those conclusions of the study that are directly supported by data, along with their clinical application (avoiding overgeneralisation) or whether additional study is required before the information should be used in usual clinical settings.
- I Please note: Equal emphasis must be given to positive and negative findings of equal scientific merit.

CONFERENCE VENUE

GRIMALDI FORUM: 10, Avenue Princesse Grace, 98000 Monaco – Phone number: +377 99 99 20 00

With 35,000 sqm. of modular premises and state-of-the-art technologies, the Grimaldi Forum Monaco is a wonderful tool to buildup events. Since its opening in 2000, about 100 events are organised each year. Many events management and international corporate companies are attracted by the glass and steel structure as well as its tailor-made services dedicated to the 3 auditoria, 22 breakout rooms, 2 interconnecting exhibitions halls and 2 banqueting areas.

A permanent team of 150 professionals, representing 46 different professions, accompanies event organizers in their projects, from the spaces-layout design to the construction of settings, as well as for logistics, catering, hospitality, communications, etc. The Grimaldi Forum Monaco can host all types of professional events: conventions, seminars, product launches, exhibitions, fairs, congresses.

Ideally located in the heart of Monaco, the Grimaldi Forum Monaco is situated within walking distance of hotels, restaurants and other leisure activities.

The Grimaldi Forum Monaco is one of the first congress centres in Europe to have successfully obtained the ISO 14001: 2004 international standard in environmental management.

The staff and visitors are actively encouraged to follow its «Act Green» policy. Furthermore a «Green Event» offer is available and proposes tailor-made solutions for events' wishing to limit their environmental footprint. For more information, please visit their web site http://www.grimaldiforum.com/en
